

I am adamantly opposed to any weakening of the State of New Jersey's Do-Not-Call Law. Telemarketers have NO RIGHT, in my view, to exercise their freedom of speech over a telephone line that I pay for. The majority of New Jersey residents (2.8 MILLION people) agree with me. We do not want telemarketers calling us at any time. Don't weaken our New Jersey law. The Telephone Consumer Protection Act should actually protect the consumer.
